

# Service / Support / Ancillary Products

## Retrofit / Upgrade Packages

Refurbish or Upgrade Systems with  
New Filters, Blowers, Clamping  
Ductwork, Electrical Controls,  
Blower Silencers, Rotary Airlocks

- Variable Frequency Drives (VFD) fit new or existing equipment.
- Compatible with auto gates to sense airflow needs and control blowers.
- Dramatically reduce energy needs.
- VFD's provide soft starting.
- Systems pay their way with power savings and Energy Rebates.

Auto Slide Gate

## Dust Collector & Facility Protection

Meet NFPA and Insurance Standards

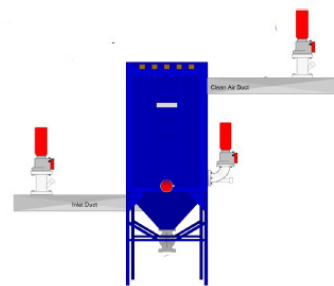

Dust Collector  
Inlet Isolation

Return Air Abort Gates

**BOSS**  
PRODUCTS LLC

Chemical Explosion  
Detection & Suppression  
Flameless Vents

**IEP** TECHNOLOGIES  
HOERBIGER Safety Solutions

Spark Detection  
& Suppression

**HANSENTEK**

## Replacement Filters / Parts

Poly Pads, Pleats, Microglass Bags,  
Cartridge Filters, Baghouse  
Filters/Cages, Cyclone After Filters,  
Pleated Bag Filters

**Donaldson  
Torit**

**DURA-LIFE**  
Twice The Life Filter Bags

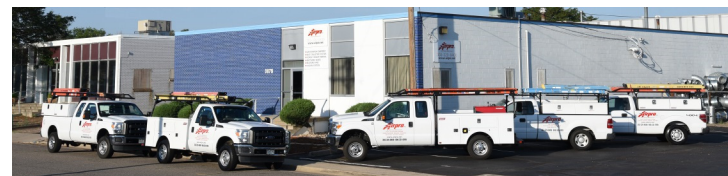

**ULTRA-WEB**  
High Efficiency Nanofiber Filters

**PowerCore**  
A DONALDSON FILTRATION TECHNOLOGY

## Field Service

- Field Service and parts available for most brands of equipment - All Sizes
- Baghouse Filter / Cartridge Filter Dust Collector change outs / Black Light Tests
- Blower Repairs / Rotary Valve Repairs
- Scheduled Preventive Maintenance
- Qualified Trained Technicians

## Industrial & Commercial Clean Air Solutions

[www.airpro.net](http://www.airpro.net)

**Fume Booth**  
For Grinding, Sanding, Deburring, Painting.

**Robotic Welding Hood Filtration**

**Weld Booth**

For Welding, Grinding, Sanding, Excellent for Schools. Includes filters and blower.

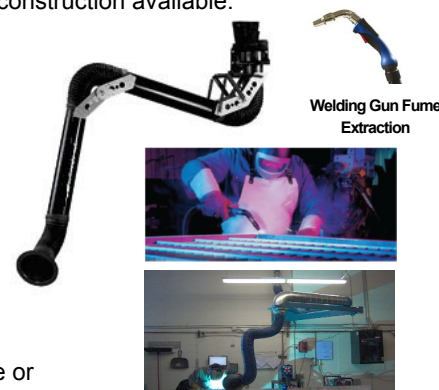

**Industrial Ambient Air Cleaner**  
Cleans "general shop" air 12 sizes to 10,000 cfm each. Manual or Self Cleaning.

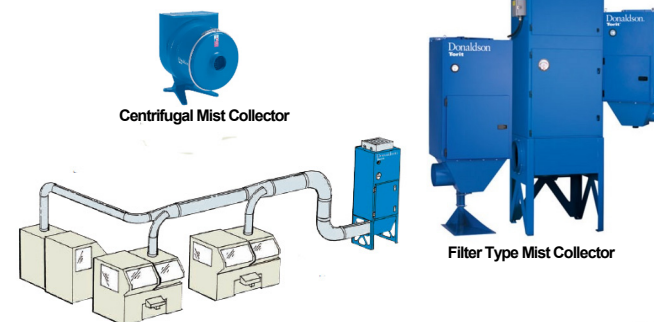

**Portable Source Capture Air Cleaner**  
Moves anywhere. Single or dual arms available.

**Source Capture Fume Extraction Arm**  
Reach 3' - 40', 5 different diameter sizes. Bench or wall mount, self-supported, easy to position, stainless steel construction available.

**Oil Mist / Smoke Collectors**

Centrifugal, filter or electrostatic type for coolant mist and smoke. Machine mounted or central systems fits all sizes of shops / plants.

**Blowers / Fans / Ventilation Products**

Backward Inclined, centrifugal, radial, airfoil, axial, material handling, man coolers, roof ventilators and blower wheels.

**Duct System Layout & Design**

**Flexible Ductwork - IN STOCK**  
Standard flex duct, crush resistant and high temperature types.

**Clamping Ductwork, Fittings, Custom Hoods - IN STOCK**

Galvanized, Stainless, Heavy Duty, Pipe, elbows, branches, manual/auto slide gates, clamps.

**Donaldson®**  
**Torit®**

**MANUFACTURING SHOPS / PLANTS,  
INDUSTRIAL PROCESSES, SCHOOLS, LABS, MINES,  
FABRICATION, ABRASIVE BLASTING,  
PHARMACEUTICAL, MAINTENANCE FACILITIES, SILOS /  
BINS, MATERIAL HANDLING, HOUSEKEEPING**

**VAC-U-MAX**

**PLYMVENT®**

**Nederman®**

**Cyclone Type Dust Collectors & After Filters**  
7 Sizes, optional hoppers, dumpsters, 400-20,000 cfm, 2-50hp.

**Insertable / Bin Vent Dust Collectors**  
Use on conveyor transfer points, bucket elevators, silos. Bag, Cartridge or PowerCore filter for all types of process dust.

**IRD**  
An easy and economical solution for dust collection applications. Open/enclosed design, manual/auto shaker filter cleaning, 5-25hp.

**Modular Baghouse Dust Collectors**  
Available in sizes from 2,000-100,000 cfm. Continuous duty.

**RF Baghouse Dust Collector**  
"Round Style", Handle heavy dust loads up to 100,000 cfm. Continuous duty, cyclonic pre-separation of dust.

**PowerCore Dust Collectors**

Unique, patented filter pac design reduces dust collector size.

**Portable / Central Vacuum Units**  
Air or electric type. Complete with unit, piping and tools.

**HEPA Vacs**  
Wet or Dry type. Explosion Proof available.

**Wet Dust Collectors / Grinding Stations / Booths**

Use for sparks or combustible dusts. Individual work station or central systems.

**Downflo / Downflo Oval / Downflo Evolution**  
Unit type or central dust collector. Original design cartridge filter unit captures smoke or dust. Continuous duty, over 40 standard sizes. ULTRA WEB NANOFIBER FILTERS.

**Grinding / Sanding Booth / Welding Powder Coating / Dust Collection**

Filter type or wet design. Contain dust inside enclosure to isolate worker breathing zones.

**Unimaster**  
Auto-Filter Shaker, Explosion vents. Choice of drum sizes.

**Packaged Downflo Evolution**  
Dust collector with an integrated fan and electronic controls – all in a quiet, aesthetically-pleasing package.

**Downdraft Dust Collector**  
Workstation unit available in 5 sizes for grinding, sanding, deburring and welding.

**Capture and Control Airborne Smoke, Dust, Mist, Odors and Fumes**
